2. Discussion took place of the potential options to use the ARPA funds towards. There are two stream crossings that need to be upgraded at a cost of approximately \$125,000 each. Sandy feels very strongly that this is a top priority. The funds can be used towards capital expenditures and replace all department computers for the Town. \$4,000 is a figure each member agreed to work with for the replacement of computers. The funds can used towards bringing broad band into Garland. Kandie is on the Planning Board and feels there is plenty of money coming from the federal government and local government that we shouldn't need to add very much of the ARPA funds. Kandie discussed investing some money into assistance for the residents of Garland.

The meeting was adjourned at 10:00 with the next meeting date on June 7th at 9:00 am.

Respectfully submitted,

Kandie Cleaves
